RESPONSE TO ELECTION REQUIREMENT

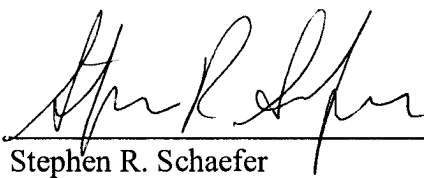

Responsive to the action mailed September 10, 2007, applicant elects the invention of Group 1D drawn to the embodiment of claims 1, 7, 8, 9, 10, 17, 23, 24, 25, 26, 33, 39, 40, 41 and 42. The election is made without traverse.

Applicant objects to the election requirement as improper as the examiner has not identified any species, but instead has simply listed claims. In other words, the examiner is attempting to reduce the number of claims to examine, without having identified distinct species. This is improper, and deprives applicant of the full examination deserved by the filing fee paid. In addition, it is not possible to respond in the manner set forth in the office action --namely, "a reply must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon" -- because no species for election have been presented by examiner.
